### WHAT WPC DECK IS

## DESIGN GREEN LIFE

DEGE WPC (Wood Plastic Composite) is made of eco-friendly wood fiber, plastic and chemical additives. WPC is today a popular choice of material, thanks to its inherent characteristics of natural wood aesthetics combined with the tenacity to endure harsh outdoor conditions. DEGE Decking is the perfect low maintenance, high durability & lifetime solution for your poolside, walkways or any high traffic outdoor area.

With the perfect mix of durability and beauty, our decking are the best in the industry.

-  **Very Low Maintenance**  
All our boards are hard-wearing and easy to maintain.
-  **No Rotting Or Warping**  
A unique material composition resistant to the damaging effects of moisture build-up.
-  **25 Year Residential Warranty**  
High-quality, long-lasting products with a 25-year warranty.
-  **Eco-Friendly**  
A long-lasting material composed of a blend of recycled plastic and wood fibres.
-  **No Splintering**  
The material composition ensures long-term safety and assurance.
-  **Strength And Durability**  
Unlike timber, our boards retain their strength and durability throughout their life.

 Designed in Germany  
 Made in China

### DECKING

## Environmental Praticer

DEGE is a pioneer in WPC with a vision to lead the industry and continually set benchmarks with uncompromised quality and unmatched product features. 'No compromises', is our ethos, and that's how we offer superlative products to stay well ahead of competition.

-  **FSC**  
Forest Stewardship Council-FSC certification ensures that products come from responsibly managed forests that provide environmental, social and economic benefits.
-  **BSCI**  
BSCI is an organization that advocates business compliance initiative with social responsibility ("BSCI"), which aims to implement a unified set of procedures.
-  **CE**  
DEGE products are all CE certified which indicates conformity with health, safety, and environmental protection standards for products sold within the European Economic Area.
-  **SGS**  
SGS is the world's leading inspection, appraisal, testing and certification organization, and a globally recognized benchmark for quality and integrity.

## Let's Discover DEGE Decks Range

Make the decks possess the perfect blend of beauty and lasting to make you rely on it.

### Elegant Color Variations and Different Surface Finishes

DEGE's multi-range decking is suitable for every need. Elegant colours, combined with different surface finishes, results in an unmatched choice for different conditions that look great and will stay that way. High performance, low maintenance, DEGE reversible decking can satisfy you. Take your pick from DEGE's range of five composite deck boards: the traditional classical range, the affordable authentic range, the elegant 3D range, the pleasant deluxe range, the advanced construction range.

All of our composite decking boards are more durable and longer-lasting than traditional wood. It's all low maintenance - with no need for painting or staining. Made from an advanced formula of wood fibres and plastic, Dege decking looks and feels natural underfoot, but unlike wood, DEGE composite decking boards are resistant to costly problems such as warpage, mould, insect damage and rot.

- DEGE CLASSICAL**  
Classical is available in wide range of surface and colors. Round Hole, Square Hole and Solid core depend on your preference.
- DEGE AUTHENTIC**  
Achieving authenticity was the ambition when developing our AUTHENTIC range. Giving you the freedom to choose between a wood grain finish and the simplicity of a grooved finish.
- DEGE ELEGANT**  
One side is a realistic embossed finish for a natural look, while the reverse is a grooved pattern for a more contemporary feel.
- DEGE DELUXE**  
Combination of Embossed Finish and Knife-cut finish, makes more pleasant. The Deluxe range naturally offers more beauty.
- DEGE ADVANCED**  
Enclosed in a four-sided, protective capping, our Advanced decking offers 360-degree protection from mother nature, certain to shield the boards and offers increased durability. A two-tone color variation and an authentic finish provides the Advanced decking with striking appeal that offers an excellent look for any outdoor space.
